## COUTA PPSU FITTINGS

Couta PPSU high performance crimp fittings are designed for use in hot and cold water installations.

### PPSU Fittings

Couta PPSU crimp fittings are lead-free, faster to install, stronger, more durable and corrosion resistant.

### Three O-Rings

Couta PPSU fittings incorporate a Multiple O-ring design made from EPDM material for better sealing performance and a more reliable connection with PE-Xb piping.

### Product Range

Couta PPSU fittings have a number of jointing options available from DN16 - DN20, including: Couplings, Elbows, Equal Tees, Reducing Tees, Reducers and End Caps.

### Warranty

With a warranty of 25 years, and a design life of over 50 years, Couta

PPSU fittings offers you peace of mind and the simplicity that you want.

### Faster Installation

Compatible with multiple tools, Couta PPSU fittings can be crimped manually or automatically with U/LD/TH profile jaws at the same time, making installations faster, easier and more efficient.

Use Couta PPSU and save time and money on your next piping project.

### Multi-Jaw Compatible Tools\*

**KemPress® KPS & KPS2**

**Novopress ACO102 & ACO152**

**REMS Mini-Press**

**Rothenberger Romax Compact TT**

**Zupper PZ 1930**

\*Must be used with U/LD/TH type Profile Jaws

## WHY CHOOSE COUTA PPSU FITTINGS?

PPSU material lead-free for better hygiene

Multi jaw compatible crimp with U/LD/TH profile jaws

Three O rings for better sealing performance

More affordable than brass fittings

Leakage indicator Leak before crimp

Hygienic safe for use in drinking water supply

Corrosion resistant

PE-XB chamfer-free processing
